Materials

- 1 sheet of 7-count plastic canvas
- Red, green, and white yarn
- Yarn needle
- Scissors
- Hot glue gun and glue sticks
- Small glass vase

Instructions

1. Cut a piece of plastic canvas that is 8 inches wide by 11 inches tall. This will be the body of the vase.
2. Start by stitching the red yarn around the edges of the plastic canvas. This will create a border for the vase.
3. Next, stitch the green yarn to create the holly leaves. To do this, make a small loop of yarn and pull it through the plastic canvas. Then, make another loop of yarn and pull it through the first loop. Repeat this process until you have created a leaf shape.
4. Once you have created all of the holly leaves, stitch the white yarn to create the holly berries. To do this, make a small knot in the end of the yarn and pull it through the plastic canvas. Then, make another knot in the end of the yarn and pull it through the first knot. Repeat this process until you have created a berry shape.
5. Continue stitching the holly leaves and berries until you have covered the entire surface of the plastic canvas.
6. Once you have finished stitching the holly, cut out the plastic canvas around the edges of the vase. Be sure to leave a small border around the edges so that you can fold it over and glue it to the inside of the vase.
7. Fold the edges of the plastic canvas over and glue them to the inside of the vase. This will create a finished edge for the vase.
8. Place the small glass vase inside the plastic canvas vase. The glass vase will hold the water for the holly.

Tips

- You can use any color yarn you like to create your holly vase. Traditional Christmas colors include red, green, and white, but you can also use other colors such as gold, silver, or blue.
- If you don't have any plastic canvas, you can use cardboard or even fabric to create your vase.
- You can add other embellishments to your vase, such as beads, sequins, or glitter. This will give your vase a more festive look.
